

PROFESSIONAL PROFILE

Full-stack developer with 9+ years of experience delivering production software across backend systems, modern web interfaces, structured product data, Android and iOS applications, and interactive 3D experiences. Strong in C#, ASP.NET, JavaScript/TypeScript, React/Next.js, Node.js/Express, Python, Java, REST APIs, databases, web scraping, WebGL and AWS. Experienced in translating business workflows into scalable systems and owning delivery from discovery through production support.

TECHNICAL SKILLS

Languages

C#, JavaScript, TypeScript, Python (4 years), Java (3 years), HTML5, CSS3

Frontend

React, Next.js, Tailwind CSS, responsive UI, Webflow, Framer

Backend & APIs

ASP.NET, Node.js, Express.js, REST APIs, authentication, databases, business workflows

Mobile

Android development (3 years), iOS/iPhone development (2 years), mobile applications for GID, Zecar and Gideon

Data Engineering

Scraping, crawling, extraction, cleaning, standardization, normalization, product-data pipelines

WebGL & Motion

WebGL, Three.js, Babylon.js, Pixijs, GSAP, Lottie.js, interactive 3D

Cloud & Delivery

AWS, Git, GitHub, deployment, QA, production support, client communication

Creative Tools

Photoshop, After Effects, Adobe Animate, Blender

PROFESSIONAL EXPERIENCE

Full Stack Developer

Jan 2024 - Present

Freelance | Self-Employed

Remote

- Design, develop, test and deploy custom web applications, internal tools and data-driven platforms for startups and established businesses.
- Build responsive interfaces with React, Next.js, TypeScript and Tailwind CSS; develop C#/ASP.NET and Node.js/Express services, integrate databases and deploy on AWS.
- Own delivery from requirements and architecture through QA, client communication, launch and production support.

Project Manager & Full-Stack Developer | CEO | QA

Jun 2026 - Jul 2026

TraderFriend

Ukraine | Remote

- Led project planning, full-stack delivery, executive product decisions and quality assurance for an API-driven sports-trading platform.
- Coordinated roadmap priorities, release readiness, user-facing workflows and cross-functional execution.

Back End Developer | Product Data Engineer

Mar 2025 - Jun 2026

GID Industrial

Kyiv / Kryvyi Rih, Ukraine | Remote

- Built and extended C#/ASP.NET ERP workflows spanning leads, quotes, purchase orders, sales orders, invoices, returns, contacts, companies, products, sourcing, inventory, reporting and administration.
- Developed Python-based scraping and crawling pipelines that collected millions of industrial product records; cleaned, standardized and organized specifications for operational use.
- Implemented reporting, profitability, customer-ranking, warehouse, manufacturer, permissions and configuration features; contributed to Android and iOS business application workflows.

Full Stack Developer

Jan 2024 - Feb 2025

Zecar

Kyiv / Kryvyi Rih, Ukraine | Remote

- Built a full-stack electric-vehicle discovery and shopping platform for Australia with a searchable vehicle database, advanced filtering, sorting and comparison-ready catalogue experiences.
- Developed model and variant pages covering pricing, range, battery, charging, efficiency, performance, body and warranty data, plus quote and calculator entry points.
- Delivered responsive resources, reviews, news and offers/deals experiences and Android/iOS mobile application functionality.

ADDITIONAL EXPERIENCE

HTML5 Animator

2023 - 2024

PureRed

Atlanta, USA | Remote

- Developed dynamic HTML5 banners and rich-media experiences with HTML, CSS, JavaScript, GSAP, Three.js, PixiJS and Lottie.js.
- Created visual assets with Photoshop, Adobe Animate, After Effects and Blender for campaigns including Microsoft, TD Bank and Sunbelt.
- Optimized playback, browser behavior and device performance while meeting brand and deadline requirements.

WebGL Developer

2021 - 2023

Haddad and Partners

Fairfield, USA | Remote

- Built interactive web applications, product configurators and 3D experiences with WebGL, Three.js, Babylon.js and PixiJS.
- Implemented GSAP and Lottie animation systems, including scroll-triggered interactions and high-engagement page experiences.
- Delivered dynamic browser rendering and real-time user interaction for product-focused digital experiences.

SELECTED PROJECT PORTFOLIO

GID Industrial ERP & Product Data Platform

Mar 2025 - Jun 2026

C# / ASP.NET Backend Developer | Product Data Engineer

- End-to-end operational ERP for sales, purchasing, sourcing, inventory, invoices, returns, reporting and administration.
- Large-scale product data acquisition and normalization supporting millions of industrial records.
- Android and iOS application workflows supporting operational access and business processes.

Zecar Electric Vehicle Marketplace

Jan 2024 - Feb 2025

Full Stack Developer

- Structured EV catalogue for Australia with advanced filters, vehicle comparison, model variants, specifications and pricing.
- Resources, reviews, news, offers and conversion journeys across responsive web and mobile experiences.
- Android and iOS mobile application development alongside the full-stack web platform.

TraderFriend Sports Trading Platform

Jun 2026 - Jul 2026

Project Manager | Full-Stack Developer | CEO | QA

- API-driven sports-trading product with project leadership, full-stack implementation, release coordination and quality assurance.

Gideon Mobile Application

Project engagement

Mobile Application Developer

- Built Android and iOS application functionality; implementation technologies are intentionally not overstated without additional confirmation.

EDUCATION AND LANGUAGES

Computer Science | Kharkiv National University of Radioelectronics | 2012 - 2017

English | Ukrainian
