PROFESSIONAL SUMMARY

Full-stack developer with 9+ years of experience building web applications, C#/ASP.NET and Node.js backend systems, data workflows and interactive digital experiences. Built a C#/ASP.NET ERP and product-data platform for GID Industrial and delivered Zecar, a full-stack electric-vehicle discovery and shopping platform. Strong across C#, ASP.NET, React/Next.js, TypeScript, Node.js/Express, REST APIs, web scraping and crawling, WebGL, animation and cloud deployment.

CORE SKILLS

Frontend

JavaScript, TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS, responsive UI

Backend & Data

C#, ASP.NET, Node.js, Express.js, REST APIs, databases, web scraping, web crawling, extraction, cleaning and normalization

WebGL & Motion

Three.js, Babylon.js, PixiJS, GSAP, Lottie.js, interactive 3D and animation

Tools & Platforms

Git, GitHub, AWS, Webflow, Framer, Photoshop, After Effects, Adobe Animate, Blender

SELECTED PROJECTS

GID Industrial ERP & Product Data Platform | GID Industrial

Recent

C# / ASP.NET Backend Developer

- Built and extended C#/ASP.NET backend workflows for an ERP spanning leads, quotes, purchase orders, sales orders, invoices, RMAs, contacts, companies, products, sourcing, inventory, reporting and administration.
- Collected millions of industrial product records through automated web scraping and crawling; cleaned, standardized and organized product specifications and related details for operational use.
- Implemented data-heavy administration and reporting capabilities, including sales-order metrics, customer profitability views, warehouse records, manufacturers, industries and configurable system settings.

Zecar Electric Vehicle Marketplace | Zecar

Recent

Full-Stack Developer

- Built a full-stack EV discovery and shopping experience for the Australian market, including a searchable vehicle database, advanced filters, sorting and comparison-ready catalogue cards.
- Developed detailed model and variant pages with pricing, range, battery, charging, efficiency, performance, body and warranty information, plus quote and calculator entry points.
- Delivered supporting content experiences for resources, reviews, news and offers/deals with responsive navigation, search and category filtering.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Freelance / Remote

2017 - Present

Remote

- Design, develop and deploy custom web applications for startups and established businesses, owning delivery from requirements through production.
- Build responsive interfaces and application architecture using React, Next.js, TypeScript, Tailwind CSS, Webflow, Framer, GSAP and Three.js.
- Develop C#/ASP.NET and Node.js/Express APIs, integrate databases, manage Git/GitHub workflows and deploy solutions on AWS.
- Translate business requirements into practical project plans, maintain client communication and deliver against agreed schedules.

HTML5 Animator | PureRed

2023 - 2024

Atlanta, USA

- Developed dynamic HTML5 banners using HTML, CSS and JavaScript with GSAP, Three.js, PixiJS and Lottie.js.
- Created visual assets with Photoshop, Adobe Animate, After Effects and Blender for high-profile client campaigns.
- Delivered campaign work for clients including Microsoft, TD Bank and Sunbelt while following brand, quality and deadline requirements.
- Optimized animations for smooth playback and consistent behavior across platforms and devices.

WebGL Developer | Haddad and Partners

2021 - 2023

Fairfield, USA

- Built interactive web applications and 3D experiences with Three.js, Babylon.js, PixiJS and WebGL.
- Implemented advanced GSAP and Lottie animation systems, including scroll-triggered interactions and high-engagement page experiences.
- Developed web-based product configurators with dynamic 3D rendering and real-time user interaction.

EDUCATION & LANGUAGES

Computer Science | Kharkiv National University of Radioelectronics | 2012 - 2017

English • Ukrainian
